

Integrity™

Accountability you can audit.

POSITIONING

Integrity™ brings program integrity into view — tracking federal grants and entitlements so improper payments, anomalies, and fraud are stopped before the money moves. Its FraudGuard™ engine screens every award against the federal record. Built for compliance and oversight teams, it frames trusted outcomes, not point-tool fraud alerts.

NAMING ARCHITECTURE

DataVisuals™

Decision Governance™

Platform layer

Integrity™

Module — grants & entitlements oversight

FraudGuard™

Screening engine inside Integrity — Do Not Pay, SAM.gov, LEIE

IN A SENTENCE

“Integrity™, part of the Decision Governance™ platform by DataVisuals™, gives federal agencies audit-ready visibility into grant and entitlement spending.”
